MONEY, STOCKS AND BONDS.

Firmer Tone in the Market, with a Bullish Feeling Pervading Dealing. NEW YORK, April 18,-Money on call

was easy at 3 per cent. Prime mercantile paper, 5@7 per cent. Sterling exchange quiet and steady at \$4.851 for sixty-day bills and \$4.881 for

demand. The total sales of stocks to-day were 116,018 shares, including the following: Atchison, 12,510; Lackawanna, 3,800; Louisville & Nashville, 2,740, Missouri Pacific, 1,700; North American, 1,600; Northern Pacific preferred, 7,650; St. Paul, 16,400; Union

Pacific, 3,000. The stock market to-day showed the same characteristics as those of the former days of the week, the dealings being confined to the few stocks in which Chicago and Boston are most interested, and the bullish feeling is now so pronounced that all bad news coming seems to have only a temporary influence, and to-day the further gold shipments and the decreasing bank reserves were powerless to check the rising tendency in the market, while some of the specialties referred to scored material improvement at the close. The gold shipments influenced the market at the opening, and prices for the first sales were generally slightly lower in consequence, while some further losses were sustained in the early dealings, but the only marked decline was in Tennessee Coal, which was affected by the protest of the stock-holders against disposal of the assets of the company at a price unsatis-factory to them. On the other hand Chicago Gas was buoyant and Illinois Central as well, and these were laterjoined by the general list, in which the Northern Pacifics were conspicuous, and the preferred especially so in the late trading. Among the specialties Cordage was again lifted materially, but the granger stocks and other late favorites moved with more deliberation. The demand was urgent, and even the bank statement failed to arrest the upward course of prices, the market finally closing active and strong at the highest prices reached, though, as a rule, the list was only slightly changed from last night's figures. Chicago Gas is up 13s, and Cordage and Northern Pacific each 14c.

Railroad bonds were dull. Sales, \$468,000. Government bonds were dull and steady, and State bonds were neglected. Another Lively Day in the Wheat Pit, with Prices Forced Up a Few Notches.

CHICAGO, April 18.-it was a lively day on 'Change-a great day for the helders of wheat. It was a day in which the speculative giants fought a long and stubbornlycontested battle to a decisive finish. The result was disastrous to the "bears," but highly profitable to the Enormous transactions, which losses, were tremendous up. One commission firm bought in a line of 800,000 bushels May wheat, which was sold "short" at 16c below the price at which it was purchased to-day, and some of it was bought even at 20c advance over the price it had been sold at. So far as known only one of the great traders, who are nearly always to be found on the "bear" side of the market, refused to haul down his colors and surrender. Cudshy, Kent, Ream, Pardridge, Bloom and Schwartz were all credited with eveningup all of their contracts. The first few minutes' trading were exciting, but merely preliminary to the great struggle of the day, which continued with gradually-increasing fierceness for an hour, May ad-

which had immediately succeeded the opening the first few trades in wheat opening the first few trades in wheat did not come out fast enough to satisfy the urgency of the sports, who, frequently in their excitement, bld more for the stuff than it was being offered at. May started with the first sale at \$1.0034, but \$1.1014, \$1.1012 and \$1.11 were bid before any came out. Before the memorandum of sale could be fore the memorandum of sale could be jotted down the entire crowd was shouting in chorus bids of \$1.12, and in a minute more \$1.13 was paid. Reactions of le were instantaneous during the first half hour, but the tendency was strongly upward until 10:30 A. M., after which tired nature and the call price, which, by that time had been reached, called a halt to the advance and a respite to the tortured "shorts." The price in the meantime had advanced to \$1.14, and atthough some sales were made even as high though some sales were made even as high as \$1.15, there were many orders to sell at \$1.1412, which could not be executed for lack of buyers. There was nothing in the news of the day to account for such phe-nomenal strength. The "hears" appeared nomenal strength. The "bears" appeared to take fright at the evidently manipulated appearance of the May future. Bradstreet's statement that the visible and invisible reserves on July would be down to 10,0.0,000 or 12,000,000 bushels if the present ratio of export was kept up may have helped the feeling. Late cables from Liverpool, while quoting values firmer, began, nevertheless, to express opinions that the advance abroad was overdone. The marked increase in the marketing of wheat by English farmers, during the last two weeks, was also a straw in the same direction. The realizing sales by the large rection. The realizing sales by the large conservative holders here was also taken as a concession that the pace abroad had been a little too hot to last much longer been a little too hot to last much longer without a breathing spell in the shape of a reaction. The liquidation included July as well as May, but the advance was about 3c less. May remained agitated during the greater part of the session, but gradually weakened. The closing quotations—\$1.12\frac{1}{2}\) for May and \$1.09\frac{1}{2}\) for July—show a net gain of 1\frac{5}{8c}\) and \frac{5}{8c}\) respectively. The clearances from the seaboard were light and the receipts in the Northwest were fair. Corn at the opening was inclined to yield to the improved weather conditions, but was deflected for a time out of its natural course by the big advance in wheat. It returned, however, after the more timid "shorts" had covered, to its first inclination, and at the close was selling at a loss tion, and at the close was selling at a loss for the day of 14@3sc. May started at 723sc, sold to 74c, and closed at 7214c. The feature of the oats market was the realizing by "longs," who took advantage of the high prices that prevailed early to put out numerous lines. The market was fairly active, and weak during the latter part of the session, the close being 4@7sc lower.

MINNEAPOLIS, April 18.—The excited condition of the futures market was a great drawback to the selling of cash wheat today. Millers and other cash buyers regarded the big advance as a purely speculative one, and would not buy anything to speak of until the market got more settled. Some sales of No. 1 Northern were made at the opening at \$1.1034@1.11, and later principally at \$1.12. A few cars brought \$1.13 @1.1312, when May was the highest, but they were choice wheat, and wanted for a special purpose. Besides May broke so quick that no more sales could be made above \$1.12, and about noon some good wheat was offered at \$1.11. INDIANAPOLIS MARKETS. A Week of Very Satisfactory Trade, the Bet-

ter Weather Helping Matters. INDIANAPOLIS, April 18.-In most departments trade in the week closing to-day was very satisfactory in its volume, and with this strong prices have prevailed in nearly all lines. In the produce markets poultry was a little off, but eggs, butter, Irish potatoes and fruits of the season were

all firm at the quotations of some days past. Lemons are scarce and tending higher. Oranges are coming in more freely; prices easy. The hide market is still rather dull in its tone at unchanged prices. The drygoods men have had an excellent trade through the entire week and prices rule steady on all lines of goods. The hardware men report trade very active, and the same is true with dealers in paints and oils. The provision market is more active than at any time in months; prices firm on all descriptions. The flour market is in stronger position than at any time in the last three years and prices, on the higher prices for wheat, are steadily advancing. Grocers have a better trade since the country roads have become passable. Heavy groceries are moving more freely. Other markets are without feature.

The local market is in a singular position. Higher prices have not increased receipts, and there is comparatively little doing. The Journal is without its usual grain quotations, as there was no call on the Board of Trade, owing to the death of Edmund F. Gall, one of the board's most active mem-

WOLSELEY ON SHERMAN

The Journal has secured a series of articles from the pen of

LORD WOLSELEY.

They will treat of the Civil War in the United States and the part taken therein by the late Gen. SHERMAN. The views and conclusions of the famous English soldier are not likely to be at all times in harmony with those entertained by American soldiers, but it is certain that General Wolseley's articles will be read with close interest by many thousands of the ex-soldiers of the Union. The first of these articles will appear in the C, 512c; Agawam F, 512c; Bedford R, 5c; SUNDAY JOURNAL of APRIL 26, vancing about 5c in that time. Although millions of bushels were being offered at the heavy advances in prices closing at 7.45c; August, 7.58@7.60c, closing at 7.45c; August, 7.59c; September, 7.72c.
